Sanitized Copy Approved for Release 2010/08/24 : CIA-RDP80T00246A051400180001-1 ( attachment INFORMATION REPORT INFORMATION REPORT This material contains information affecting the National Defense of the United States within the meaning of the Espionage Laws, Title 18, U.S.C. Secs. 793 and 794, the transmission or revelation of which in any manner to an unauthorized person is prohibited to the transmission or revelation of which in any manner to an unauthorized person is prohibited to the transmission or revelation of which in any manner to an unauthorized person is prohibited to the transmission or revelation of which in any manner to an unauthorized person is prohibited. 50X1-HUM S-E-C-R-E-T COUNTRY USSR REPOR' Observations of Viborg and Vysotsk DATE DISTR. **SUBJECT** Harbors NO. PAGES REFERENCES RD DATE OF 50X1-HUM INFO. PLACE & 50X1-HUM DATE ACQ SOURCE EVALUATIONS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE Viborg. Draught in the waterway into Viborg is 19 feet. At the main dock the sounded depth was 24 feet. No radar equipment was observed in the vicinity of Viborg. It was not permitted to call at Viborg during darkness, probably because of the poor marking lights in the water way. About 1000 meters southeast of the harbor there is a large concrete shed from the roof of which a search light shines on the harbor the whole night. Near the concrete shed there is a military cantonement. On Viborg's main dock there was a supply of slabs (props). Here three old  $^{\rm N}L^{\rm N}$  cranes with a lifting capacity of three tons and two newer whip-arm cranes with a five to six ton lifting capacity were observed. The dock had three rrailway tracks. Work in the harbor proceeded in three shifts, including Sundays. Many dwellings stood empty and were under repair. About 20% of the population of Viborg is judged to consist of the military. 50X1-HUM Vysotsk. In the Vysotsk roadstead lay three rows of buoys, six in each row. An auxilliary ship of about 3000 tons went back and forth between these buoys. Seven or eight minesweepers and a tugboat were observed in Vysotsk on 30 August 1959. Vysotsk gave the impression of being in a state of decline and seemed to be not in use. S-TC-R-TE-T 50X1-HUM STATE NAVY (Note: Washington distribution indicated by "X"; Field distribution by "#".)
